

Files — High Score

Day 14

Lesson 13

Nora XIE

Vibe Coding Bootcamp

Phase 3

Time: 60–75 min

Mode: Self-study

Today's goals:

- ★ Read and write text files
- ★ Persist high score between runs
- ★ Use with open safely

Quest map: Day 14 of 22

Hook — why today matters

Today you level up your builder skills.

Big idea

Learn

with open('score.txt') as f: auto-closes file. Write one number or name, score.

AI rules today

Predict/Run: AI off. **Investigate:** Socratic hints only. **Make:** you review every line.

Predict — Run — Investigate — Modify —> Make

Demo code

Folder: day14/

```
1 with open("highscore.txt", "w") as f:
2     f.write("9000\n")
3 with open("highscore.txt") as f:
4     print("Best:", f.read().strip())
```

Guided practice

Try it

In terminal, `cd day14`, then predict output, then run: `python demos/demo_file.py`

Assignments

Assignment

Work in: `day14/assignment/`

- A — **Predict** After write "5", what does `read` return?
- B — **Debug** `assignment/buggy_file.py`
- C — **Level up** Save/load high score for your game.
- D — **Explain** Why use `with` instead of bare `open`?

Self-study checklist

- ☐ Re-read **Learn**; predict outputs (10 min)
- ☐ Assignments A–D (35–45 min)
- ☐ Run your program 3 times with different inputs
- ☐ 3-bullet “what I tried” note
- ☐ Stuck 15 min → C-R-A-V (`../shared/prompts.md`)

Reflection

1. Easiest vs hardest today?
2. One line you can teach a friend.

Tomorrow: Dictionaries and JSON.
