

Midterm — Data Detective

Day 12

Lesson MT

Nora XIE

Course 02

Assessment — Phase 1 and 2

Time: 75–90 min

Mode: Self-study

Today's goals:

- ★ Clean a messy shop-sales CSV
- ★ Make one chart and three insights
- ★ Explain your cleaning steps aloud

Course 02 quest map: Day 12 of 18

Watch out

Exam rules: All parts: AI off for solutions. Parent may time and observe. Notes from Days 1–11 allowed.

Instructions

You are the analyst for a tiny game shop. The export is messy — fix it, chart it, explain it.

Demo code

Open: `day12_midterm/demos/messy_shop.csv`

Exam tasks

Work in: `day12_midterm/assignment/` **Part I — Inspect (10 min, no code)** — Open `assignment/messy_shop.csv`. List 5 data problems on paper.

Part II — Clean (25 min) — Write `assignment/clean_shop.py` → `clean_shop.csv`. Log fixes in `CLEANING_LOG.md`.

Part III — Chart (20 min) — Bar chart: items sold OR revenue by item. Save `shop_chart.png`.

Exam tasks (continued)

Work in: day12_midterm/assignment/ **Part IV — Insights (15 min)** — INSIGHTS.md:
exactly 3 bullet insights backed by numbers.

Part V — Oral (5 min) — Explain one cleaning rule to parent ✓

Parent sign-off Student showed chart and one insight from their own numbers ✓

Rubric (parent/coach)

Part	Criterion	Pts
I	Data inspection (5 problems)	15
II	clean_shop.csv + log	30
III	Chart quality	25
IV	Three insights	20
V	Oral explanation	10

Checklist

- ☐ Read all parts before starting
- ☐ Follow time limits per part
- ☐ Parent sign-off where marked
