

Capstone Build — Log Every Fight

Day 14

Lesson 14

Nora XIE

Course 02

Phase 3 — Game Analyst (Track B)

Time: 60–75 min

Mode: Self-study

Today's goals:

- ★ Play and log 10+ fights in one session
- ★ Keep CSV consistent with spec
- ★ Fix first crash without full AI rewrite

Course 02 quest map: Day 14 of 18

Hook

Data analysts need volume. Play like a tester — on purpose, not just for fun.

Learn

Learn

Session protocol:

1. Delete or archive old test CSV (optional backup).
2. Play 10 fights — mix strategies (not all the same command).
3. After each fight: check the row looks correct.
4. Commit when logging works.

AI rules today

Predict/Run: AI off. **Investigate:** Socratic hints only. **Make:** you review every line.

Demo code

Folder: day14/

Open: day14/demos/session_checklist.md

 Try it

Open `demos/session_checklist.md` in Cursor. Read the steps; check off each item.

 Assignment

Work in: `day14/assignment/`

A — Predict If you forget headers, can Day 9 code still work?

B — Debug Fix one logging bug you find today.

C — Main 10+ logged fights in `assignment/fights.csv`. Game matches spec MVP.

D — Git Commit message describing logging feature.

 Checklist

- ☐ Re-read **Learn**; predict outputs (10 min)
- ☐ Assignments A–D (35–45 min)
- ☐ Run your program 3 times with different inputs
- ☐ Stuck 15 min → C-R-A-V (`../shared/prompts.md`)

Reflection

1. Easiest part today?
2. One line you can teach a friend.

Tomorrow: More data: aim for 20+ total fights.
